Cotton, Provisions, Etc.

New York, April 22.—Saturday's break in prices of stocks brought large white, 11½c; fancy large vertices in prices of stocks brought large selling orders into the market, and they were in evidence all through the list at the opening, but there were also buying orders on a very large scale to take the offered stock. Part of these were the offered stock. Part of these were the offered stock. Part of these were the offered stock of the purpose of supporting them. The expectation was quite general that the market would open with something like a crash in value, but as it is not unusual in Wall street, over expectation defeated waiting to take advantage of the order of the stocks in the steel industrials with a cymical nack of surprise. Evidently the opportunity had been selized to dispose of the tampet of the absence of pressure of long stocks in the steel industrials with a cymical nack of surprise. Evidently the opportunity had been selized to dispose in the market in endeavors to cover.

This pretty clearly indicated a pause in the most aggresive tactics of the bear campaign. A collatoral object of that campaign is generally believed to lower level of prices. The pressure of liquidation continued heavy during the first hour, and a second drive was made by the bears at the end of that time, but the steed y absorption of offerings bergot a very cautions mough among the professionals, and a decidedly quite from the built pools which have recently been active, notably in Masouri Pacific, showed a disposition to resume operation. The undertone of the market was firm during the latter part of the day, and closing was strong and rather active, with the steel industrials at the case of Federal Steel and 2½ in Steel and Wire. Wall street keeps an average was a steel of the consumers, who are well and by the consumers, who are well and price and contracts, which are known to have been worked off at lower level of prices.

Last year's prices are known to have been worked off at lower level of pric

tes, and the bond market was quick rise to \$53\cong of the Western York and Pennsylvania general gage three-fours on the arrange-t perfected with the Pennsylvania road. Otherwise prices yielded in bothy with stocks. Total sales, par c, \$2,580,000.

S. Bonds were unchanged in bld ations.

The Cotton Markets.

NEW YORK COTTON MARKET. NEW YORK COTTON MARKET,
New York, April 23.—The cotton market was disturbed to-day by conflicting
advices as to crop conditions in general
and particularly as to the situation in
the flooded territories. The weakness
of the stock market was another element leading to speculative hesitation.
Our market started steady, with prices
3 points lower to 3 points higher, and
for a time local trading had the market to themselves. Reports of further
heavy rains in the flooded regions of
the central belt, with an uneatisfactory rect to themselves. Reports of further heavy rains in the flooded regions of the central belt, with an uneastisactory average of crop accounts from other sections, gave relative firmness to the new crop positions. The fact that there was some pretty beisk buying for Southern account was construed to be a confirmation of reports of damage by excessive rains. Following the first call, therefore, the market took a level generally 296 points above Saturday's closine, but public support failed to materialize, and a new, but cautious, selling movement again set in. Prices receded under this pressure, yet the market was at no time particularly weak, as the forecasts regarding the movement in the near future worked towards small figures. This, with the steadily increasing strength of statistics, pointing to the smallest visible supply at the end of the season for years deprived the shorts of courage and made the market a small one.

The market closed quiet with prices 4 points higher to two points lower.
